

The Oxygen Facial: ...The results are undeniable!

Rejuvenations Spa is adding the highly touted Oxygen Facial to it's repertoire of beauty treatments. In fact the furor over Madonna's personal endorsement has raised this particular facial to near mythic proportions. Other celebrities following this trend are Gwyneth Paltrow, Molly Sims, Eva Longoria Heather Locklear, Gwen Stefani, Mark Wahlberg and Justin Timberlake are just a few of the red carpet regulars who consider the treatment a necessity before major events.

Unlike most facials, where you can expect a myriad of uncomfortable processes including: extractions, exfoliations and cosmetic peeling solutions that burn, the Oxygen Facial is a luxuriously soothing process wherein cool streams of oxygen and serums are sprayed gently onto your face. The results are instant. Within seconds of the application you will see a visible plumping of the skin around the eyes, mouth and forehead. Watch the years literally melt away without pain or discomfort and thank God that you haven't opted for surgery at this point. The Oxygen Facial is simply the crowning jewel of the new beauty regime that everyone should implement if he/she is serious about looking instantly, flawlessly younger without any downtime or recovery time.

This treatment help heal and soothe damaged skin, boost collagen, and elastin synthesis and formation. This is ideal for mature skin, dry skin, smokers and complexions in need of revitalization.

Designed to refine the forehead, soften eye contours, and especially the lines around the mouth, the Oxygen facial smoothes and firms instantly!
